

Mind Map of Canada

On the other side of this page, draw a map of Canada as close to reality as possible. Do this on your own – without looking at other people’s maps or any reference material such as an atlas. On your map, label what you regard as important features, such as provinces, cities, mountain ranges, and bodies of water.

When you’ve finished, analyze your map.

1. Which parts of Canada do you know best?
2. Which parts of your map are most incomplete?
3. Do you feel it is important to know where places are in Canada? Explain.

Save your map and we’ll try it again at the end of the course!
